

A lush forest scene with tall, thin trees and a ground covered in vibrant green moss. Several logs are scattered on the forest floor, also heavily covered in moss. The lighting is soft, creating a serene and natural atmosphere.

OUR MISSION

Technomoss is a young and innovation company based in Slovakia. Biggest producer of preserved moss walls, green interiors, frames in biophilic design. Rare preserved moss indoor interior solutions of the future. Company Technomoss in the world of modern interior design started working in 2015 year. We use only 100% natural materials. All our interior solutions are eko friendly and lasts for 7-10 years.

RARE MATERIALS

BALL MOSS

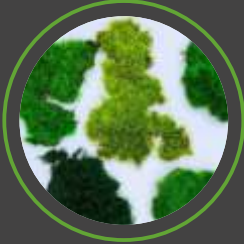

Bolmoss is moss that grows in Scandinavian forests.

The moss has unique texture that gives perfect 3d effect to any green wall. Every piece of moss is hand-picked best quality balls from forests that bring fresh and green life of forest to your space. Ballmoss has very big absorbable level. Available in 4 colors.

Colours - Light green, dark green (other colours on request)

Sizes - small or xxl (up to 70cm)

FLAT MOSS

Flat moss typically grows on tree trunks, logs, walls, rocks and other surfaces. It is a small to medium-sized moss about 2–7 cm long.

Perfectly combines with all other types of mosses and plants and is used as a basis for all green wall or paintings.

Colours - Spring green, moss green, light green, dark green (other colours on request)

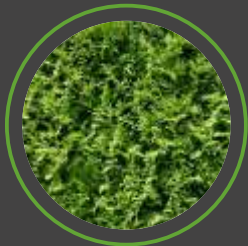

PROVENCE MOSS

Provence moss that grows in Scandinavian and French forests. It is very common to Ball moss but has different structure is very soft on touch.

The moss has unique texture that gives perfect 3d effect to any green wall. Every piece of moss is hand-picked best quality balls from forests that bring fresh and green life of forest to your space. Provence moss has very big absorbable level.

Colours - Spring green, light green, dark green (other colours on request)

FERN MOSS

Fern moss is commonly type of flat moss that grows on tree trunks, logs, walls, rocks and other surfaces. It is a small to medium-sized moss about 2–7 cm long. Perfectly combines with all other types of mosses and plants and is used as a basis for all green wall or paintings.

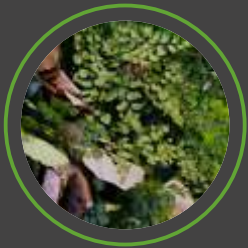

Colours - Light green, dark green (other colours on request)

REINDEER MOSS

REINDEER MOSS is native moss in North European and Scandinavian forests where it covers all areas. The moss is and collected in environmentally friendly manner. This lichen moss reveals all its splendor in everyday use, whether on large wall surfaces or in paintings. Its use is exclusively in the interior. The reindeer moss is the best humidity controller, must be guaranteed an environment with a minimum relative humidity of about 40%. Below the lower value becomes dry but once the humidity is restored to a higher value again becomes more flexible, soft and fresh.. Reindeer preserved moss is a 100% biodegradable product that doesn't require no maintenance, light or water. The color that is determined during the stabilization phase contains no harmful toxic substances. The unique shape, variety of colors and acoustic qualities offer endless possibilities for its use in design. This soft and flexible moss fits perfectly with modern materials and is a symbol of modern environmental thinking. Available in many colors.

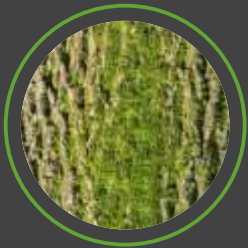

PRESERVED PLANTS

The stabilized plants grows in wild South America,Africa.

We create unique Jungle plant collection.Preserved plants are 100% biodegradable and safe products that don't requires no maintenance, light or water.

Flowers and wild plants make up our forest collection and give you a true green wall effect. Jungle plant collection gives 100% feeling of untouched nature and power of forest.

Assortment of more than 60 types of plants will fits any requests.

FOREST PRODUCTS

Our collection of unique forest products that is collected from different areas in the world.There are tree barks(birch,poplars,oak tree) tinders,tree branches.
